

Learning Through Trails Family Nature Club

Looking to spend time with your kids outdoors in a fun and educational setting?

The Family Nature Club is an initiative by the Rainbow Routes Association to give families a venue to bond in and with the outdoors. Grandparents are welcome too!

The Club will meet on Sunday afternoons during the summer. Meetings will run from 2pm to 4pm, and will be full of games, science and nature activities, and plenty of time for free play and exploration. Guest speakers will help members to understand and participate in some real field science.

Membership is **free of charge**, but space is limited, and thus it is first-come-first-served. If you are interested in joining the club, or simply want some more information, you can contact Geoff at geoff.hughes@sudbury.ca or call 674-4455 x2474. We also welcome volunteers.
